

# SW02

The SW02 is designed with a cold resistant tread compound and the tread pattern design employs multiple grooves and sipes for greater driving capabilities on snow and ice. A slip-resistant tread formula is made specifically for winter weather conditions and the multi-block groove design in the tread, safely and effectively discharge snow. Zigzag sipes improve the tread contact area for greater block rigidity and improved grip on snow and ice.

### Features & Benefits:

- Zigzag sipes design improves winter weather grip.
- Cold-resistant tread compound and tread pattern grooves improve snow and ice traction.
- Special tread compound formulation improves winter weather safety.
